The Town of Lincoln is shifting gears on big road plans for its Greenlane Road overhaul.

The major reconstruction plan on Greenlane from King Street to

Bartlett Road over the next decade, is budgeted at \$11.5 million.

Lincoln town staff are budgeting almost \$6.4 million for the repairs in the 2025 capital budget after realizing a stretch of road between Lincoln Avenue and Ce-

darbrook Lane is a top priority.

In 2022, council approved \$5 million to repair Greenlane from King Street to Lincoln Avenue.

It has cancelled those plans and set new ones after learning the infrastructure between

Lincoln and Cedarbrook is more of a priority.

"We've actually got to do this part first," said Lincoln chief administrative officer Mike Kirkopolous said.
